

Cranes Slewing Bearings. ***Sales & Inspections***

ALATAS

**CRANE SERVICES WORLDWIDE
SINGAPORE**

High quality slewing bearings with delivery times of 60 to 90 days.

Quality control is carried out by Alatas personnel. Class-certification is available for all bearings.

Certificates are available for each production step, automated records are available for all heat treatments, hardness tests, surface tests etc. The bearings are made from 42CrMo4 V or 50CrMo4 V, the raceway hardening is 4mm to 6mm, depending on the bearing design.

Alatas have supplied more than 100 bearings in the past few years and have extensive experience.

Alatas slewing bearings are checked at every stage of the manufacturing process providing complete quality control - beware of cheaper slewing bearings from manufacturers that do not offer such rigorous quality control.
